

5 Nov 2014

Dear editors:

please find attached a manuscript for submission to *Philosophy of Science* entitled "Vagueness, Noise, and Signaling."

Please check whether the paper complies with the length requirements. Since the document is math-heavy and contains a number of figures, it was not entirely clear to us, whether this is so (see comments included during online submission).

Thank you very much for your efforts!

Sincerely yours,

Michael Franke
